

SupplyWEB 9.5 – Supplier Training

Demand

When a Magna facility publishes demand, it is sent as a release. The release contains header information and schedules for various parts. Each schedule contains requirements for a specific part. Through SupplyWEB, Magna facilities and suppliers share the same view of the requirements.

Magna facilities can send Material Releases, Shipping Schedules, both or a hybrid of the Material Release that contains both the weekly forecast and the daily shipping schedule. If sending both types of schedules, the Shipping Schedule is fulfilled by shipping while the Material Release remains unaffected as a planning document.

Through SupplyWEB, Magna facilities and suppliers can also view the demand summary. The summary report shows demand for all parts going to a specific destination that is due to leave the Ship From within the next seven days.

Releases and Shipment Schedules

To view your demand that has been published to SupplyWeb, select the **Demand->Schedules** link from the navigator.

The screenshot shows a web interface titled "Demand Releases" with the Magna Powertrain logo in the top right corner. The form is divided into two main sections: "Search Criteria" and "Advanced Search Criteria (May increase search time.)".

Search Criteria:

- Facility: < All > (dropdown)
- Ship To: < All > (dropdown)
- Ship From: < All > (dropdown)
- Customer Part: < All > (dropdown)
- Published Since (MM-dd-yyyy): [text input]
- Document Type: < All > (dropdown)

Advanced Search Criteria (May increase search time.):

- Requirement Type: < All > (dropdown)
- Status: < All > (dropdown)
- Net Change:
- Show Part List:

A "Continue" button is located at the bottom right of the form.

You may specify the search criteria for the documents you wish to view on the page pictured above. You can bypass the selection and press the continue button to view all of your current demand.

Load Sheet Report

To view your future expected shipments in the format of a printed report, select the **Reports->Load Sheet Report** link from the navigator.

The screenshot shows a web form titled "Report Load Sheet" with the MAGNA POWERTRAIN logo in the top right corner. The form is organized into a table-like structure with the following fields:

Search Criteria	
Facility	GMT900 TEST
Ship To	GMT900 X2T
Ship From	MPT Supplier
Ship Coverage Through	06-28-2006 <small>default coverage is 1 day</small>
Include Past Due	<input checked="" type="checkbox"/>
Sort By Pull Signal	<input checked="" type="checkbox"/>

At the bottom of the form is a "Submit" button.

You must specify the search criteria for the releases you wish to print on the page pictured above. You can bypass the selection and press the continue button to print all of your demand. Your report will be generated as a PDF document and will open in a new window.

Blanket Purchase Orders

To view your blanket purchase orders, select the **Demand->Blanket POs** link from the navigator.

The screenshot shows a web form titled "Demand Blanket POs". The form includes the following search criteria fields:

Search Criteria	
Facility	TRANS4M1 Test System
Ship To	TRANS4M1 Demo System
PO Date After	
PO Date Before	
PO Number	

At the bottom of the form is a "Search" button.

You must specify the search criteria for the purchase orders you wish to view on the page pictured above. You can bypass the selection and press the continue button to view all of your PO's.
